NOTE: The weight placement of the javelin was altered in 2002 by national rule. The National Federation of High Schools recognized throws using the newly weighted javelin as record throws. Thus, Scott Hagy's Class AAA throw of 219-4 in 1966 and Troy Burkholder's throw of 238-1 in 1995 stand as "old" records under the previous weighting standard, but will remain on the books. Record throws after the year 2002 will be considered "new" records. The actual weight of the javelin was not changed by the new weighting standard.
